Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-35, drawn to an article for cleansing body surfaces, classified in class 510, subclass 130.
- II. Claims 36 and 37, drawn to a kit comprising a single-layer article, classified in class 401, subclass 132.
- III. Claims 38 and 39, drawn to a kit comprising a four-layer article, the second layer being a pouch, classified in class 401, subclass 132.
- IV. Claims 40 and 41, drawn to a kit comprising a four-layer article, the second layer being a laminate, classified in class 401, subclass 132.

The inventions are distinct, each from the other for the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP §806.04, MPEP §808.01). In the instant case Group I is directed to an article while Group II is directed to a kit comprising a single-layer article.

Inventions I and III are unrelated. In the instant case Group I is directed to an article while Group III is directed to a kit comprising a four-layer article, the second layer being a pouch.

Inventions I and IV are unrelated. In the instant case Group I is directed to an article while Group IV is directed to a kit comprising a four-layer article, the second layer being a laminate.

Inventions II and III are unrelated. In the instant case Group II is directed to a kit comprising a single-layer article while Group III is directed to a kit comprising a four-layer article, the second layer being a pouch.

Inventions II and IV are unrelated. In the instant case Group II is directed to a kit comprising a single-layer article while Group IV is directed to a kit comprising a four-layer article, the second layer being a laminate.

Inventions III and IV are unrelated. In the instant case Group III is directed to a kit comprising a four-layer article, the second layer being a pouch while Group IV is directed to a kit comprising a four-layer article, the second layer being a laminate.

Because these inventions are independent or distinct for the reasons given above and the inventions require a different field of search (see MPEP § 808.02), restriction for examination purposes as indicated is proper.

A telephone call was made to Ms. Bridget Murray on 26 June 2006 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hasan S. Ahmed whose telephone number is 571-272-4792. The examiner can normally be reached on 9am - 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael P. Woodward can be reached on 571-272-8373. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
